Subject: BDCP: Documenting Corps needs to make LEDPA determination, and prelim assessment and eventual delineation of WOUS

Hi Mike and Erin:

As you are aware, the Corps has been working with EPA to draft a joint letter that would include an outline of what the Corps needs from DWR to make a LEDPA determination (based on a preliminary estimate/assessment of WOUS in each of corridors/alignments presented in the BDCP Draft EIS (i.e., "Modified Pipeline Tunnel Option", "Through Delta/Separate Corridors Option", "East Option", and "West Option"), and to eventually complete a Jurisdictional Determination (JD) based on a more rigorous wetland delineation completed by DWR.

We are wondering if a joint letter, or rather minutes (approved by all attendees) from our the DWR/Corps meeting would suffice to notify DWR what the Corps expects to receive from DWR in order to make the LEDPA decision and eventually complete a JD. What do you think?

Thank you,

Susan S. Clark
